

Horse Wagering Rules

We are open 7 days a week from 8am to 8 pm Pacific Time

(Closing time may vary due to Racing location and conditions)

Please take a moment to review the rules, tracks, and limits. If there is a racetrack that we don't offer, just ask! Many tracks not available on our website can be wagered over the phone. Call customer service for the direct toll free number to our dedicated horse department. We'll always do our best to accommodate your needs.

RULES:

- We take Thoroughbred racing only. No Harness, Quarter horses, Arabian or Steeplechase.
- All wagers must be posted 1 minute prior to post. A clerk will give you a post time at the end of your call. If the race starts before the time you are given on the call your bet will be NO ACTION, win or lose.
- If a wager is made after the race has started it will not be paid. We reserve the right to cancel any wager due to a ticket being past post or any computer malfunction in the closing time of any race.
- We do not assume responsibility for wagers that are unsuccessfully entered before post time.
- Horses are identified by saddlecloth number not by name.
- Customers are responsible for their selection of both horse and race numbers.
- Any attempt to play negative pool hedges will result in account suspension.
- When you wager on a horse that is coupled with other horses, your wager includes all horses running under that number. If a horse is coupled with others, you receive all horses running as a part of the entry. If part of the entry is scratched and the other part of the entry runs, all wagers have action. Online, there is no "must go" action as part of the entry. If one of the entry horses run, all wagers have action.
- Exotic wagers will only have action if the track offers payouts for that type of wager.
- There are no house odds. If there are no track payoffs for certain type of wager, all wagers will be refunded.
- If a horse is scratched, all Win/Place/Show wagers will be refunded and the portion of Exacta/Trifecta/Superfecta/Quinella combos that contain the scratched horse will be refunded. (Please see rule regarding entries)
- For Daily Doubles and Pick 3's, if a horse is scratched in any leg, you will receive refunds on all the combinations with the scratched horse unless the track pays a consolation prize, in that case you will receive the consolation payoff.
- If a track is on our betting menu, but not listed on the horse track categories, the track defaults to the "D tracks" category with that track's scheduled payoffs.
- Horse wagers will be graded within 15 minutes of the race being made official. We will not be liable for any loss alleged to result from a delay in grading.

Types of wagers offered:

- We offer wagers on Win, Place, Show, Daily Doubles, Exactas, Quinellas, Trifectas, Superfectas, Pick 3's, Parlays and Round Robin Parlays.
- We do not offer House Quinellas or If bets on horse races.
- On selected races such as Triple Crown races and Breeders Cup, we offer two horse matchups.
- In matchups between two or more named horses, all horses must go for wagers to have action.
- Matchups are determined by horse name. Any track coupling is irrelevant toward determining the winner of a matchup.
- In matchups between one named horse and the field, wagers will have action if and only if the named horse starts. Scratches of horses on the field will not affect the standing of the wager.
- The highest place finisher involved in the matchup will determine the winner of the matchup. If no horse finishes, the matchup will be graded no action.
For Triple Crown races, such as Kentucky Derby, Belmont Stakes, Preakness, and the Breeders Cup we offer no limits and full track odds.
