Official Game

The official football game policy is as follows:

If a game venue is changed, for any reason, the game will automatically be cancelled and all bets will need to be re-wagered.

If a game date is changed, but the venue remains the same and the game will occur within 72 hours of the original schedule, all wagers will still have action.

Additionally, all pro and college football games must be played for a minimum of 55 minutes in order to have action.

Feel free to call, or log in to live chat, with any questions regarding action on a game.
